JACK RYAN KAUFMAN, M.A.

Doctoral Candidate, Clinical Psychology | UT Southwestern Medical Center

jack.kaufman@utsouthwestern.edu · (214) 645-5769
ORCID 0009-0004-3673-8741 · jackryankaufman.com

EDUCATION

05/2027 *Expected*
Doctor of Philosophy, Clinical Psychology
University of Texas Southwestern Medical Center, Department of Psychiatry — Dallas, TX
APA-accredited doctoral program in clinical psychology
Dissertation: *Carepartners in Electroconvulsive Therapy*

05/2019
Master of Arts, Middle Eastern Studies
Tel Aviv University, Lester and Sally Entin Faculty of Humanities — Tel Aviv, Israel
Graduated magna cum laude

05/2017
Bachelor of Arts, Linguistics (Minor: Arabic Languages)
University of Florida, College of Liberal Arts & Sciences — Gainesville, FL
Graduated cum laude

CLINICAL TRAINING

08/2025 – 07/2027
Predoctoral Intern, APA-Accredited Clinical Psychology Internship
UT Southwestern Medical Center — Dallas, TX
Two half-time clinical placements across two years

09/2026 – present
Steven A. Cohen Military Family Clinic at Metrocare (Placement #2)
Dallas, TX
Supervisor: Marlon Beach, PhD (1hr/week supervision)
Population: Post-9/11 veterans, active-duty service members, National Guard and Reserve members, and their families
Hours: 20hrs/week
Responsibilities: Conduct diagnostic evaluations and provide individual, couples, and group psychotherapy. Deliver trauma-focused protocols including Cognitive Processing Therapy and Prolonged Exposure, alongside CBT. Conduct suicide risk assessment and collaborative safety planning. Coordinate care with community, VA, and military referral sources, and maintain documentation and treatment planning under weekly individual supervision.
Areas of Clinical Focus: Combat-related PTSD; military sexual trauma; moral injury; depression; anxiety; suicidality; anger and irritability; sleep disturbance; substance use; adjustment to civilian and post-service life; couple and family functioning

09/2025 – 08/2026
Consultation-Liaison Psychology / Psychiatry Service (Placement #1)
Parkland Hospital— Dallas, TX
Supervisors: Amor Correa, PhD; Christian Goans, PhD; Kim Roaten, PhD (1hr/week supervision)
Population: Medically hospitalized adults across inpatient services of a Level I trauma center and one of the largest public safety-net hospitals in the United States
Settings: Medicine, Surgery, Burn ICU, Obstetrics, PM&R
Hours: 20 hours / week
Responsibilities: Complete bedside diagnostic interviews and brief evidence-based intervention with medically hospitalized patients, including crisis intervention, suicide risk assessment, motivational interviewing, and short-term treatment. Triage physician-generated consultation requests, conduct chart and medication review prior to evaluation, and consult with psychiatry, neuropsychology, social work, and nursing as indicated. Deliver targeted behavioral recommendations to primary medical teams, including behavioral management strategies for

complex presentations. Attend interdisciplinary rounds and complete follow-up intervention across the course of hospitalization.

Areas of Clinical Focus: Adjustment to acute medical illness and injury; depression; anxiety; acute stress and PTSD; grief and end-of-life concerns; treatment nonadherence; behavioral pain management; substance use and withdrawal; agitation and behavioral dysregulation; suicidality; carepartner distress

08/2024 – present **Student Clinician, Southwestern Psychotherapy Clinic**

UT Southwestern Medical Center — Dallas, TX

Supervisors: Mary Ann Little, PhD; Martin Deschner, PhD; Wendy Ringe, PhD

Population: Adults presenting to a low-cost, trainee-led community psychotherapy clinic

Hours: 2-3 patient caseload

Responsibilities: Conduct intake evaluations, formulate treatment plans, and provide longer-term individual psychotherapy. Maintain documentation and participate in weekly individual supervision.

Areas of Clinical Focus: Depression; anxiety; interpersonal and relational concerns; trauma; adjustment; self-esteem; personality pathology; identity and life-transition concerns

08/2025 – 01/2026 **Student Clinician, Psychiatric Emergency Department**

Parkland Health — Dallas, TX

Supervisors: Eneida Miranda, DO; Dennis Le, MD

Population: Adults presenting in psychiatric crisis to a Level I safety-net emergency department

Hours: 75 hours

Responsibilities: Conducted diagnostic intake interviews and structured risk assessment for patients presenting acutely. Gathered collateral information, documented findings, and contributed to disposition and level-of-care recommendations with the psychiatry team.

Areas of Clinical Focus: Suicidality; homicidality; psychosis; mania; substance intoxication and withdrawal; agitation; acute stress reactions; serious mental illness

09/2023 – 06/2024 **Practicum Student, Population Health / Primary Care**

Parkland Health, Community-Oriented Primary Care: Irving, Southeast Dallas, and C.V. Roman Health Centers — Dallas, TX

Supervisors: Jeethu Joseph, PhD; Jennifer Guerrero, PhD; Natasha Benatti, PsyD

Population: Adults referred from family medicine within a safety-net community primary care network serving predominantly uninsured and underinsured patients

Hours: 20hrs/week

Responsibilities: Delivered diagnostic intake evaluations and individual psychotherapy, including trauma-focused protocols, within an integrated care model. Completed warm handoffs with primary care providers, provided brief consultation to medical teams, and coordinated referral to specialty behavioral health when indicated.

Areas of Clinical Focus: Depression; anxiety; PTSD and complex trauma; chronic disease self-management; health behavior change; insomnia; somatic concerns; psychosocial stressors including housing and food insecurity

05/2022 – 07/2023 **Psychometrist II, Neuropsychology Clinic**

Department of Psychiatry, *UT Southwestern Medical Center* — Dallas, TX

Director: Laura Lacritz, PhD

Population: Adults referred for presurgical evaluation, suspected neurocognitive dysfunction, and mood disorders

Responsibilities: Administered and scored comprehensive neuropsychological batteries under neuropsychologist supervision. Recorded behavioral observations, prepared score summaries for interpretation, and maintained testing protocols and materials.

RESEARCH EXPERIENCE

06/2023 – present **Graduate Student Researcher, Interventional Psychiatry Research Program**
Department of Psychiatry, *UT Southwestern Medical Center* — Dallas, TX
Principal Investigator: Shawn M. McClintock, PhD, MSCS
Responsibilities: Conduct and train staff in clinical interviewing and neurocognitive assessment with participants who have treatment-resistant depression and bipolar disorder, including on-unit assessment during electroconvulsive therapy.
Projects: Informing Functional and Health Outcomes of Carepartners in Electroconvulsive Therapy; Deciphering Mechanisms of ECT Outcomes and Adverse Effects (DECODE; R01, NIMH).

06/2024 – present **Research Lead, We Defy Foundation**
McKinney, TX
Responsibilities: Direct all research activity for the organization, including internal program evaluation, university research partnerships, regulatory and data-sharing agreements, analysis, and dissemination.

06/2022 – 06/2023 **Assistant Imaging Scientist, ASPIRE Lab**
Psychiatry and Behavioral Health, *Stony Brook University* — Stony Brook, NY
Principal Investigator: Jodi Weinstein, MD
Responsibilities: Built and ran analysis pipelines for MR spectroscopy and neuromelanin-sensitive MRI. Maintained lab computing infrastructure, data storage and organization, and the lab website.
Projects: Toward an Integrated Understanding of Neurotransmitter Dysfunction in Schizophrenia — A Multimodal MRI Study (K23, NIH); Role of the Cholinergic System in Schizophrenia Using [18F]-VAT PET.

06/2020 – 06/2022 **Research Coordinator, Mood and Cognition in Aging Lab**
Psychiatry and Behavioral Health, *Stony Brook University* — Stony Brook, NY
Principal Investigator: Sara Weisenbach, PhD
Responsibilities: Served as lab fMRI specialist, credentialed to run scans independently and to administer E-Prime task protocols, preprocessing, and higher-level analyses. Administered virtual and in-person neuropsychological batteries with physiological data collection (BioPac/AcqKnowledge, ECG and EDA). Conducted SCID-5 interviews within a broader diagnostic assessment.
Projects: Emotion Regulation in Depression and the Aging Brain (R01, NIMH); Cognitive, Clinical, and Neural Markers of Late Life Depression (IK2, VA); Using Resting-State fMRI to Predict Cognitive Decline Among World Trade Center Responders (R21, CDC).

01/2017 – 06/2017 **Research Assistant, Neural Control of Movement Lab**
Brain Rehabilitation Research Center, *U.S. Department of Veterans Affairs* — Gainesville, FL
Principal Investigator: Carolynn Patten, PhD, DPT
Responsibilities: Completed consent visits, administered cognitive tasks, and assisted with rTMS administration for a study of motor recovery interventions in neuropathological populations.

GRANTS AND RESEARCH FUNDING

08/2026 **FY26 Traumatic Brain Injury and Psychological Health Research Program (TBIPHRP) Clinical Trial Award – Congressionally Directed Medical Research Programs (CDMRP)**
Title: *Grappling for Resilience: An Intervention Trial of Brazilian Jiu-Jitsu for Veteran Psychological Health and Reintegration (GRIT-BJJ)*
Role: Co-Investigator
Award Amount: $2,000,000 (*estimated*)
Funding Period: 07/2027 – 03/2029

Status: Submitted (October 2026) / Under Review

06/2026 **Targeted Call for Research on Serving and Ex-Serving Australian Defence Force Members Mental Health and Wellbeing 2026 – National Health and Medical Research Council (NHMRC) Australia**
Title: *Rally Point: A trauma-informed Brazilian Jiu-Jitsu intervention for serving and ex-serving Australian Defence personnel*
Role: Co-Investigator
Award Amount: $1,550,000 (*estimated*)
Funding Period: 04/2027 – 03/2030
Status: In Process / Under Review

12/2025 **Jerry M. Lewis, M.D. Mental Health Research Foundation**
Title: *Carepartners in Electroconvulsive Therapy*
Role: Principal Investigator
Award Amount: $16,225.00
Funding Period: 02/2026 – 01/2027
Status: FUNDED

HONORS AND AWARDS

10/2026 **Texas Psychological Foundation's (TPF) Honoree Award**
TPA Annual Conference, Austin, TX

08/2026 **Top 10 Poster Presentation, Society for Military Psychology (APA Division 19)**
APA Annual Convention — Washington, DC

05/2024 **First Place, UTSW Translational Challenge (T1–T4 Lay Language Presentations)**
Department of Clinical & Translational Research, UT Southwestern Medical Center

PEER-REVIEWED PUBLICATIONS

08. Elsharydah MN, Saha A, Schaffert J, **Kaufman JR**, Leary J, Jin A, Almandoz J, Thomas BP. (in press) *Regional cerebral blood flow is reduced in older adults with type 2 diabetes and obesity and is associated with cognitive function and metabolic dysfunction*. Geroscience.

07. Saha A, Shi W, Elsharydah MN, Schaffert J, **Kaufman JR**, Leary J, Jin A, Almandoz JP, Lu H, Thomas BP. (2026). *Blood-brain barrier permeability is elevated in type 2 diabetes and obesity, and associated with cognitive function and metabolic markers: A cross-sectional study.* Fluids and Barriers of the CNS.

INVITED TALKS AND PANELS

10/2026 **Panelist — "Performance Without Limits: Strategies for Mind, Body, and Mission"**
MCON Health (summit on *brain health, mental health, care delivery, payment mechanisms, and suicide prevention for veterans, active-duty, and military families*) – Las Vegas, NV (accepted)

10/2025 **Panelist — "From Interest to Impact: How We Got Into C-L Psychology"**
Consultation-Liaison Psychology SIG, Society for Health Psychology (APA Division 38)

06/2025 **Panelist "Development of a Consultation-Liaison Psychologist: Trainee to Building a Service"**
Consultation-Liaison Psychology SIG, Society for Health Psychology (APA Division 38)

04/2025 **Speaker — "Brazilian Jiu-Jitsu for Disabled Combat Veterans: A Primer"**
Steven A. Cohen Military Family Clinic at Metrocare — Dallas, TX

TEACHING AND PROFESSIONAL EDUCATION

09/2026 **Lecturer — "Qualitative & Mixed Methods Research in Clinical Psychology"**
UT Southwestern Clinical Psychology Didactic Series — Dallas, TX

03/2025 **Lecturer — "Electroconvulsive Therapy: Informing Realistic Perceptions"**
UT Southwestern Clinical Psychology Didactic Series — Dallas, TX

10/2024 **Instructor — De-escalation Training for Behavioral Health**
Department of Nursing, Psychiatry, Parkland Health — Dallas, TX

08/2024 **Instructor — Trauma-Informed Self-Regulation: Using Neurobiology to Manage Stress**
Department of Nursing, Psychiatry, Parkland Health — Dallas, TX

07/2024 **Presenter — Integrating Trauma-Informed Care into Diabetes Management**
Healthy Living with Diabetes Conference, Parkland Health — Dallas, TX

04/2024 **Guest Speaker — The Biopsychosocial Model and Mental Health**
Future Doctors Program, Psychiatry and Neurology Session, L.G. Pinkston High School — Dallas, TX

PROFESSIONAL SERVICE AND LEADERSHIP

2026 – present **Associate Chair and Early Career Professional Representative**
Committee on Health Psychology, BAP Professional Network

2026 – present **Committee Member, Education & Training Committee**
APA Division 56 (Trauma Psychology)

2025 – present **Student Representative, Consultation-Liaison Psychology SIG**
Society for Health Psychology (APA Division 38)

2024 – 2027 **Trainee Subcommittee Member**
Society of Biological Psychiatry

2020 – 2023 **Grand Rounds Coordinator, Department of Psychiatry and Behavioral Health**
Stony Brook University — Stony Brook, NY
Responsibilities: Coordinated speaker invitations and scheduling, ran live and virtual sessions, and maintained the committee's data, planning, and attendance analytics.

PROFESSIONAL MEMBERSHIPS

2026 – present **Society of Behavioral Medicine**

2025 – present **Society for Military Psychology (APA Division 19)**

2025 – present **Trauma Psychology (APA Division 56)**

2024 – present **Society for Health Psychology (APA Division 38)**

2023 – present **American Psychological Association of Graduate Students (APAGS)**

2023 – 2027 **Society of Biological Psychiatry**

2023 – 2024 **International Neuropsychological Society**

RESEARCH AND ASSESSMENT SKILLS

Evidence-based interventions: Cognitive Processing Therapy; Prolonged Exposure; CBT; ACT and Focused ACT; Motivational Interviewing; Brief Action Planning.

Clinical assessment: SCID-5; structured diagnostic interviewing; suicide risk assessment; neuropsychological battery administration and scoring (WAIS-V, WAIS VI, WMS, RAVLT, DRS, TMT, COWA, BNT, WCST, PAI, MMPI, R-PAS, HAM-D, HAM-A; NIH Toolbox Cognition Battery)

Study design and data: REDCap instrument and consent-workflow build; randomized pilot trial design; longitudinal and ecological momentary assessment protocols; qualitative and mixed methods.

Neuroimaging and physiological data acquisition: fMRI acquisition (formerly credentialed operator); fMRIPrep; Flywheel; MR spectroscopy and neuromelanin-sensitive MRI pipelines; E-Prime; BioPac Systems/AcqKnowledge (ECG, electrodermal activity).

Code and Analysis: SPSS, JASP, R, Bash scripting, MATLAB (SPM)

CERTIFICATIONS

Brief Action Planning — BAP Professional Network

Focused Acceptance and Commitment Therapy for Brief Interventions

Mental Health First Aid — National Council for Mental Wellbeing

Certified Personal Trainer — National Federation of Professional Trainers

Basic Life Support / CPR — American Heart Association
